DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a chip structure, classified in class 257, subclass 734.
 - II. Claims 15-20, drawn to a process for fabricating a bump, classified in class 438, subclass 15+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case instead of removing the photo resist layer from the chip, you could have not formed the photo resist layer.
